Press Release

EZnet Services announces the release of Version 3.0 of its EZnet Scheduler®, Cloud based program

This new release is packed full of features not found with any other appointment scheduler programs costing twice the price

West Palm Beach, FL, December 7, 2011: Jerry Stabler, President of EZnet Services announced today the release of version 3.0 the latest EZnet Scheduler®, which includes many improvements inspired by our customers' feedback. This feature rich program was designed from the ground up to eliminate paper schedules, increase productivity, and reduce operating expenses while increasing client revenue, plus much, much more. Stabler said, "This new upgrade confirms our commitment to our customers and shows that we listen to their thoughts and suggestions". Among some of these key changes, the new upgrade allows our customers to add user defined fields for capturing data that can be later used in email marketing campaigns. Additional new features include user control of screen size, an HTML calendar version to allow one button scheduling from clients website, a new setup wizard, which permits a new user to be up and running in moments. Users will have the ability to reassign a complete schedule from one person to another, just with a click of the mouse. The EZnet Scheduler® works great for any company that has a need to schedule people, tasks, and resources. The flexibility of this unique program allows for many uses such as: a Tutor scheduler, Automobile dealership maintenance scheduler, service maintenance scheduler, hair stylist appointment scheduler, massage therapist appointment scheduler, medical appointment scheduler, business scheduler, Sports activity scheduler, restaurants reservations scheduler and much more.

Our EZnet Notify© reminder service has been enhanced to provide not only text and email notifications, but also voice notifications, utilizing our exclusive text to speech engine. This fills a void that other

For Release 9 a.m. EDT, November 25, 2011

more

scheduling programs have to remind their clients of appointments, who do not have internet access, such as the elderly or others who restrict text messaging.

Our EZ advantage Service offers remote live receptionists who will answer your calls, schedule your appointments, and take messages as needed. This service can be a replacement for a fulltime receptionist, or can be used during lunch, breaks or after hours.

Simultaneously with this launch, we have developed a new website and client web portal, sporting a new cleaner look. Pricing starts at \$17.95 per month and new clients are encouraged to try our new format during our 15 day free trial. Call 1-855-220-1024 or find us on the Web at EZnetscheduler.com.
